

Miguel Muñoz

Junior Software Developer

Professional Profile

Cross-Platform Application Developer (Java, Spring Boot, Kotlin, JavaScript, Express.js, TypeScript).

Following a 13-year career as a psychologist, I bring professional maturity, proactivity, strong teamwork abilities, adaptability to dynamic environments, and a deep understanding of user needs to the tech sector. I excel at translating complex requirements into logical, structured software solutions.

Passionate about learning new technological tools and driven by continuous growth, I am looking to apply these skills within the technology and software development industry.

Work Experience

Full Stack & Android Developer

Parc Mobil -Diputació de Barcelona

Barcelona | 2025 - 2026

- End-to-end co-development of a comprehensive fleet management and chauffeur services system, spanning from architecture to deployment.
- Backend (REST API) & Web: Developed a platform for service assignment and vehicle monitoring. Implemented email automation and dynamic document generation.
- Android App: Developed a native application to digitize the on-road workflow, implementing background processes for data synchronization.
- Architecture & Deployment: Designed the system using Clean Architecture and the MVVM pattern. Containerized services for production deployment.

Emotional & Community Wellbeing Lead

EAP Dreta Eixample

Barcelona | 2024

- Identified early signs of emotional distress to implement individual and/or group psychoeducational interventions.
- Designed and implemented workshops and activities to promote mental health and emotional well-being.
- Coordinated with primary care teams, social services, and the mental health network for comprehensive case management.

Psychologist

Centro Neuroespai

Badalona | 2019 - 2024

- Conducted individual and couples psychotherapy and counseling.
- Provided psychological care for adults and adolescents.
- Conducted diagnoses and prepared clinical reports.

Psychologist

Fundació Salut i Comunitat (FSC) - Comunidad terapéutica Riera Major

Viladrau | 2017-2024

- Conducted individual, couples and family psychotherapy and counseling.
- Designed and supervised individualized therapeutic plans.
- Created and facilitated group dynamics with users and their family representatives/caregivers.
- Coordinated with referring resources and external collaborators.
- Conducted diagnoses and prepared clinical reports.
